

# Managed WordPress Hosting

You manage your business and we'll manage your hosting.

We love supporting our customers as much as possible, which is why we've teamed up with our favorite hosting platform - **Flywheel** - to offer Managed WordPress Hosting that is insanely secure and fast. Businesses will love the freedom of a secure website that comes with its own friendly team of experts. When you sign up for a website care plan with LP Creative you can rest easy knowing that your website is in good hands 24/7.

## Hacker-Free Security

The leading provider of WordPress security solutions, Securi will offer you world-class malware scanning. Your site will be scanned and protected against attempts to hack your site. Plus, we'll clean up malware for free!

## Free SSL Certificate

Free SSL Certificates included with every site. This means your website will have a secure, encrypted version (HTTPS). This will give your site a nice boost in both SEO and security.

## Tuned for WordPress

Our hosting is custom built for our favorite platform, WordPress. Our server support team are experts at it.

## Malware Monitoring & Free Removal

Your site will be constantly monitored for malware. With our managed hosting plan, you can rest easy knowing that your website is in good hands.

## High Speed Performance

You'll receive top-notch performance out of even the highest traffic sites. Most sites improve page load speed by 2 seconds when migrated to our server. We'll help your sites achieve smooth and speedy performance!

## Nightly Backups

Rest easy knowing your sites are backed up every single night.

## Expert Support

Our focus on WordPress means we'll go a lot deeper than your typical hosting company, because we can help with everything from "My server is down" to "Can you recommend a WordPress plugin that does xyz?"

## Free Site Migrations

We'll handle your entire migration process for you. Switching your hosting provider to us will be a breeze. We'll take care of everything for you.

## For WordPress Websites Only

Managed WordPress Hosting is for your website only, which means no email accounts or domain registration is available through Flywheel. Your domain registration and emails would be handled through different party(s) (i.e. Google, Hover, GoDaddy etc.) We are happy to suggest Domain Registrars and Email providers as well as assist with setup.
