

Our goal is to keep your business running efficiently as your new website brings in new leads and customers. Keeping your website up-to-date, backed-up, and secure can be time-consuming and overwhelming. Not to mention the fact that it can take up valuable time that could be spent focusing on your business. We offer the following ongoing website care plans for our clients.

# Website Care Plans

Maintenance plans to preserve and protect your WordPress websites

## Core Services

### Core software and plugin updates

We review and manage WordPress core software, plugin and theme updates to ensure your site stays up-to-date and secure.

### Secure, off-site cloud backups

We manage automatic, nightly backups of your website files and database files, which is stored on a secure, off-site server.

### WordPress training videos

We believe in empowering our clients, and are happy to offer a set of videos to walk you through your new website dashboard.
